EDUCATION

2009	French " diplôme d'ingénieur ENSCP ParisTech* " conferring a Master of Science. Specialization in Materials Science and Engineering. *ENSCP ParisTech: École Nationale Supérieure de Chimie de Paris, a graduate school of chemical science and engineering (https://www.chimie-paristech.fr)
2002 to 2004	" Prep classes ", scientific university level preparation for the nationwide competitive entrance exams of the French "Grandes Écoles".
June 2002	Baccalaureat, High school graduation awarded with first class honors, Science Option (<i>Math, Physics, Chemistry and Biology</i>). German European Mention (<i>history and geography courses in german</i>).

LANGUAGES

- **French:** native tongue
- **English:** fluent (*both written & spoken*), TOEIC score: 920
- **German:** fluent (*both written & spoken*). German certificate: ZMP, awarded with honors
- **Spanish:** good understanding, being improved

COMPUTER SCIENCE & GRAPHIC DESIGN

- General Web development / Web design: **html5, css3 & scss, jquery & coffeescript, Ajax**
- **Ruby on Rails framework frontend development**
- **Java projects interfaces development**
- **PHP / MySQL** development, specialization in **Wordpress & Drupal CMS** (*advanced customization & plugins devpt.*)
- Mobile devices oriented websites optimization & adaptation
- Specialization in **search engine optimization and paid indexing** Google/Bing/Yahoo
- Professional use of the **Adobe Design suite** (*Photoshop, Illustrator, Indesign, Dreamweaver*)
- **Video edition** with Adobe Premiere
- **Microsoft Office Suite** Powerpoint, Word, Excel, MS Project: advanced level user, macro development service

RESEARCH AND TEACHING

UNIVERSITY RESEARCH LABORATORIES

January to February
2008
(2 months)

AgroParisTech (*Agronomy and Biology graduate school*), **Analytical Chemistry Laboratory** (*Hervé This' team*): study of chlorophyll photoprotection by carotenoids.

February to June 2006
(5 months)

UPMC (Paris VI University), Heterocycles Chemistry Laboratory: Indolizidine 223 synthesis optimization.

October to February
2006
(5 months)

École Polytechnique (Palaiseau, France), Condensed Matter Physics laboratory: synthesis and study of Zirconia nanoparticles. Objective: increase the conductivity of PEMFC type fuel cells membranes.

TEACHING EXPERIENCE

October 2010 to July
2011

Private tutor of Math, Physics and Chemistry at "Cours Legendre" (*12h/week*). High school to second-year university level students and medical school students.

2003 to 2008

Private tutor of Math, Physics and Chemistry for students of secondary and third school level (*3h/week*).

2004 to 2005

Chemistry lectures in secondary schools for the French Chemical Industries Union: slides organization, oral presentation, and discussions with pupils.
